About WieTec

Jointly organized by the All-China Environment Federation, China Energy Conservation Association, and other authoritative organizations in collaboration with Shanghai Herui Expo, WieTec has earned certification from the **Union of International Fairs (UFI)** due to its excellent service standards and international level. The expo brings together over **4,000** companies, covering an exhibition area of **260,000** square meters. It is a world environmental expo platform focused on energy conservation, emission reduction, and low-carbon environmental protection, aiming to provide systematic sustainable solutions for the entire industry.

WieTec has two main thematic sections: [**Industrial Energy Conservation and Environmental Protection**] and [**Low-Carbon Buildings and Comfort Systems**]. The green environmental technologies, products, and solutions showcased at the expo cover the industrial and building sectors. They are widely applied across various societal fields such as municipal, Commercial, Residential, and agricultural sectors. As a result, WieTec has become a crucial hub for connecting the upstream and downstream of the green economy industrial chain.

Exhibition Highlights

- 01** An industry-leading international event certified by **UFI**, spanning **260,000** square meters, gathering **4,000** exhibiting companies and **120,000** professional visitors;
- 02** The premier platform chosen by **thousands of new products and technologies** for their debut, serving as a showcase for top global brands and cutting-edge technologies;
- 03** Featuring dozens of **specialized thematic pavilions** that span various end-user industries, delving into the trending application scenarios across sectors;
- 04** Hosting over **100** industry summit forums, attracting more than **5,000** elites to engage in face-to-face discussions with top experts about the future;
- 05** Promoted through **300+** vertical industry media outlets, **120+** authoritative industry organizations, and mainstream digital marketing channels, providing 360° comprehensive exposure in the Chinese Market;
- 06** Empowered by the international business resources of Informa Markets, establishing new channels for global expansion with over **5,000** international buyers.

Exhibits Range

Wastewater Treatment

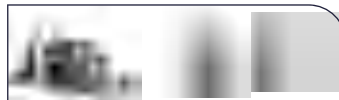

Rural and Township sewage/water environment comprehensive treatment/-sponge cities, evaporation crystallization equipment/zero wastewater discharge, filtration equipment/consumables/filter materials, sewage equipment/supporting products, sludge disposal/resource utilization, disinfection and sterilization equipment/chemicals.

Membrane and Water Treatment

Membrane Products, Complete Membrane Equipment, Membrane Supporting Products, Filters, Industrial Water Purification Equipment and Supporting Products, Filter Elements, Membrane Treatment Chemicals, etc.

Pumps, Pipes, and Valves

Pumps, valves, intelligent water supply equipment, pipes/fittings, drainage equipment, actuators, pump and valve supporting products, motors, etc.

Exhaust Gas and Solid Waste

Comprehensive environmental management, exhaust gas treatment, solid waste disposal, sludge treatment, dust removal/ desulfurization and denitrification, recycling and resource utilization, third-party environmental services.

Environmental Monitoring and Process Control

Environmental monitoring and testing equipment, process control and inspection instruments, smart water management technology and systems, smart IoT systems, laboratory construction and analysis equipment, energy-saving monitoring/measuring instruments, smart water conservancy, etc.

Energy-Saving Equipment

Compressors, industrial energy-saving fans, environmental protection/water treatment fans, fan accessories, waste heat and pressure recovery and re-utilization, compressor accessories, energy-saving systems, vacuum technology, industrial heat pumps, industrial heat pump supporting products, etc.

Point of Use/Entry

Whole House Water Purification Systems, Under-Sink Water Purifiers, Direct Drinking Water Dispensers, Water Boilers, Pres-Filters, POU Water Dispensers, Piped Direct Drinking Water Systems, Countertop Direct Drinking Water Dispensers, Sparkling Water/Tea/Coffee/Ice-Making Functional Water Systems, Water Purification Consumables, and Accessories.

Indoor Air Purification

Air purification equipment, fresh air systems, air disinfection, humidification and dehumidification, indoor air management, air purification/fresh air system supporting products.

Pipeline Systems

Metal pipes and fittings, plastic pipes and fittings, plumbing and heating valves, building drainage systems, eco-friendly home electrical wiring, etc.

HVAC and Comfort Systems

Air conditioning and heating equipment, three-constant and five-constant systems, hot water systems, smart control systems.

Low-Carbon Integrated Decoration

Roofs and ceilings, integrated wall surfaces, flooring systems, integrated kitchens, integrated bathrooms, and complete bathroom units, etc.

● Leading Exhibitor Brands (Partial)

Industrial Energy Conservation & Environmental Protection

Low-Carbon Building & Comfort Systems

● Target Visitors

Distributors/Dealers/Integrators

Distributors/Dealers/Traders, Building Materials, Water Supply System Integrators, Comfort System Integrators, etc.

Municipal and Architectural Design Consulting

Municipal Designing Institutes, Architectural Designing Institutes, Interior/Space/Decoration Design, Engineering Consulting and Supervision, etc.

Engineering Construction/Installation Companies

Comprehensive Environmental Management, Environmental Engineering, Environmental Services, Water Engineering, Water Supply and Drainage Engineering, Operation and Maintenance Services, General (and Subcontractors) for Construction, Building/HVAC/Electromechanical Engineering, Water Purification Engineering, etc.

Industrial End Users

Petrochemicals, Chemicals, Pharmaceuticals, Steel, Metallurgy, New Energy, Electronics, Power Plants, Rubber and Plastics, Plastics, Paper, Printing, Textiles, Food and Beverages, Coating, Automotive, Electroplating, Non-ferrous Metals, Cement, Glass, Ceramics, Leather, Apparel, Mining, etc.

Commercial End Users

Municipal Water Groups, Solid Waste Disposal Centers, Waste Treatment Plants, Water Supply/Sewage Treatment Plants, Water Supply and Drainage Companies, Real Estate Developers/Owners, Hotels/Property Management/Hospitals/Schools/Factories, etc.

Government/Municipal Departments/Industry Associations/Professional Media/Environmental Protection Bureaus/Industrial Park Management Committees/Research Institutes/Environmental Monitoring Stations/Third-Party Testing Agencies, etc.

WieTec 2024 Achieves New Heights

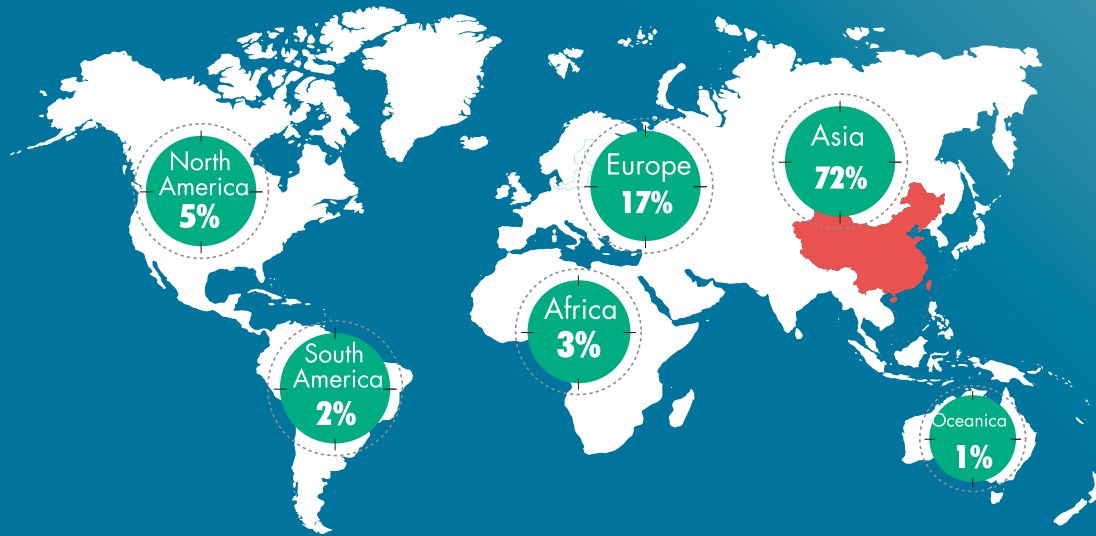

01 **111,444** visitors attended, a **7%** increase compared to the previous edition

03 Exhibitor Satisfaction: **82%**

02 Visitor Satisfaction: **91%**
99% of visitors expressed interest in attending the WieTec 2025

04 **4,000+** overseas buyers confirmed their purchasing intentions with Chinese companies in advance

● Visitor Regions

● Exhibitors' Feedback

WieTec is a crucial platform for us to launch new products. With the theme "Sustainable Innovation, Intelligent Future," this year we made a remarkable appearance with comprehensive solutions and multiple specialized seminars, attracting numerous visitors for consultations. In the future, we will continue to leverage WieTec to showcase more innovative and reliable products to users.

WieTec serves as a brilliant stage where we can exchange insights, spark ideas, and jointly explore the limitless possibilities of water with colleagues from around the world. Pentair is committed to deep thinking and relentless exploration of water, dedicated to providing high-quality water treatment products and solutions, ensuring every drop of water is vibrant and full of life. We firmly believe that through our efforts, every household will enjoy pure and healthy water. We wish WieTec continued success and growth.

As a global leader in water pumps and pump systems, Wilo has extensive application experience in the fields of construction, industry, and water management, and has gained high recognition from the industry and our partners. On June 4th, through activities such as new product launches, innovation awards, and strategic cooperation signings at WieTec, we provided deeper insights into Wilo's intelligent solutions. In the future, Wilo will continue to focus on technological innovation and use the platform of WieTec to showcase more innovative and reliable products and technical solutions to our users.

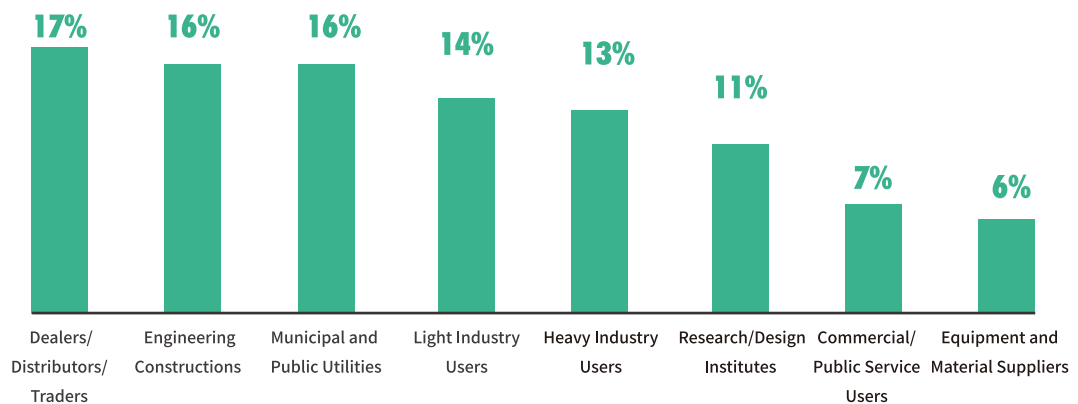

We would like to thank the organizers for their meticulous planning and professional audience invitation services, which provided Sharp with an excellent platform for showcasing and networking. The professionalism of the exhibition has received unanimous praise from both leaders and guests. Throughout the exhibition, Sharp's booth was bustling with activity and attracted significant attention. We established business relationships with numerous partners and look forward to seeing everyone again next year.

● Visitors' Feedback

The organizers of this exhibition provided meticulous and thoughtful service, showcasing advanced technologies in the water treatment field from both domestic and international sources. The concurrent forums gathered numerous experts, helping companies gain a comprehensive understanding of market trends and technological developments. Next year, the association plans to organize even more member enterprises to attend. We wish Wietec continued success!

▶ Jiangsu Environmental Protection Industry Association

During the two-day visit, the delegation of our members made full use of their time to explore the exhibition, examine products, and engage in extensive communication and exchanges. The series of lectures at the exhibition provided a wealth of cutting-edge information, allowing participants to gain insights, learn, and enhance their understanding.

▶ Wenzhou Household Appliances Industry Association

Wietec has demonstrated a high level of professionalism in event preparation and audience organization, and the forum has received enthusiastic responses from attendees. Additionally, this year's exhibition was well-received, with high attendance and positive feedback, as both the quantity and quality of exhibitors and visitors were impressive! We look forward to continuing to work with industry peers at next year's exhibition to further promote the continuous progress and development of the water industry.

▶ Shanghai Water Supply Dispatch

● Wietec Forum Series

Wietec has launched the "Wietec Forum Series" as a special feature. This program draws on the platform's extensive industry resources, inviting authoritative experts, seasoned scholars, and leading company representatives to share insights on the most pressing topics of the day. The feature has received unanimous praise from the industry. Building on the momentum generated by this program, Wietec 2025 will join forces with leading industry organizations to host over **100** themed summits, inviting thousands of industry leaders to gather and discuss the future of the sector and explore pathways for development!

Gathering Industry Luminaries (Previous Keynote Speakers)

Bo Song

Chairman of the Supervisory Board at China Construction Metal Structure Association

Yang Liang

Director of Technology Promotion Division at Technology and Industrialization Development Center of the Ministry of Housing and Urban Rural Development

Zuxin Xu

Academician of the Chinese Academy of Engineering Professor at Tongji University

Jun Ma

Academician of the Chinese Academy of Engineering Professor at the School of Environment, Harbin Institute of Technology

Jiuhui Qu

Academician of the Chinese Academy of Engineering Distinguished Professor at the School of Environment, Tsinghua University

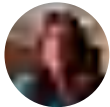

Joby Boxall

Fellow of the Royal Academy of Engineering, UK Professor at the University of Sheffield

Oliver Grievson

Chairman of the Digital Water Committee of the International Water Association

Shannon K. McCarthy

Secretary-General of the International Desalination and Reuse Association (IDRA)

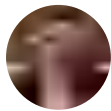

Hengyi Zhao

Vice Supervisor of China Energy Conservation Association Executive Deputy Secretary-General, Heat Pump Special Committee

Jingyou Han

Class-II Counsel of the Department of Raw Materials and Industry, Ministry of Industry and Information Technology of the People's Republic of China

He Wang

Executive Vice President of Committee on Purification & Fresh Air of China Construction Metal Structure Association Secretary-General of Committee on Comfort Home of China Construction Metal Structure Association

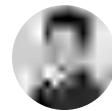

Jianxing Tang

President of the Water Purification Branch of the National Association of Health Industry and Enterprise Management

Zhihua Hua

Honorary Vice President of China Building Decoration Association Executive President of Nantong Decoration Association Chairman of Nantong Sanjian Decoration Group Co., Ltd

Min Jia

Chairman of Indoor Purification Service Professional Committee of China Building Materials Circulation Association

Lina Wang

Researcher and Doctoral Supervisor at the Department of Environmental Science and Engineering of Fudan University

List of Forums (Partial)

Industrial Energy Conservation & Environmental Protection

- ◇ Seminar on Advanced Technology and Equipment for Wastewater Treatment in the Petrochemical Industry
- ◇ Seawater Desalination Technology Innovation and Engineering Application Seminar
- ◇ IWLF International Industrial Water Leaders Forum
- ◇ China Membrane Industry Development Summit
- ◇ Asian Water Treatment Technology Exchange and Supply and Demand Matchmaking Conference
- ◇ Seminar on High salt Wastewater Treatment and Resource Utilization Technology
- ◇ Seminar on Innovative Water Treatment Technology and New Material Application Under the Background of Carbon Peaking and Carbon Neutrality
- ◇ Digital Water Innovation Summit
- ◇ Forum on Sustainable Development of Urban Water Systems
- ◇ Seminar on the Application Technology of Membrane Materials in Urban High-quality Water Supply
- ◇ Smart Water Summit Forum of Six Provinces and One City in East China

Low-carbon Building & Comfort Systems

- ◇ National Qifen Home Improvement Plumber Summit Forum
- ◇ "Qifen Cup" Plumber Skills Competition Advanced Contest and Awards
- ◇ China Healthy Habitat Conference & Clean Water HVAC Conference
- ◇ China Water Purification Industry Innovation and Development Conference
- ◇ Standard Formulation Meeting of "Negative Ion Application Conditions in Healthcare Environment"
- ◇ Shanghai Urban Renewal Innovation Summit Forum
- ◇ Home Improvement Industry Thousand Enterprises Procurement Summit Forum
- ◇ Smart Park High-quality Development Summit
- ◇ China Real Estate Industry Carbon Peak Development Summit Forum
- ◇ China Healthy Environment Electrical Appliance Innovative Product Technology Trend Forum
- ◇ Yangtze River Delta Plastics Industry Chain High-quality Integration and Development Forum
- ◇ Seminar on Efficient Centralized Air Conditioning Technology - Shanghai Station

● Business Matchmaking

At WieTec, we have leveraged the global influence and unique resources of our environmental platform to establish the VIP Membership Diamond Club. This robust, efficient, and diverse platform has been curated specifically for key decision-makers across various specialized sectors. Whether representing government departments, designing institutes, engineering firms, distributors, or any of the end-users and owners from **38** distinct industries. WieTec ensures that exhibitors within the club are continually presented with opportunities throughout the year.

During the three-day exhibition, WieTec assembled approximately **4,578** distinguished buyers from the fields of engineering, procurement, equipment, and technology. This presents a suitable platform for engaging in substantive discussions with industry professionals. As a testament to our endeavors, we have facilitated over **1,800** successful procurement matches through both digital and traditional channels.

● Industry Partners

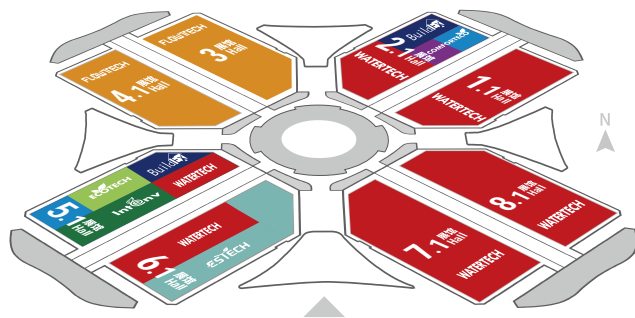

Industrial Energy Efficiency and Environmental Protection

- China Association of Environmental Protection Industry
- China Boiler and Boiler Water Treatment Association
- China Chemical Enterprise Management Association
- China Desalination Association
- Committee Of Water Supply and Drainage for Building
- Water Industry Branch of the China Civil Engineering Society
- Shanghai Instrument and Control Industry Association
- Shanghai Electro Plating Association
- Shanghai Business Association of Environmental Protection
- The Architectural Society of Shanghai China of Water Supply and Drainage
- Shanghai Water Supply Management Affairs Center of Shanghai Water Authority
- Shanghai Water Supply Industry Association
- Shanghai Laboratory Equipment Association

Low-carbon Building and Comfort Systems

- Heat Pump Professional Committee of China Energy Conservation Association
- HVAC and Refrigeration Branch of China Electronic Energy-saving Technology Association
- Clean Energy Equipment and Application Working Committee of China Electronic Energy-saving Technology Association
- Fresh Air and Water Purification Branch of China Building Metal Structure Association
- Residential Environment Quality Professional Committee of China Quality Inspection Association
- Indoor Purification Service Committee of China Building Materials Circulation Association
- Low-carbon Healthy Living Environment Technology Center of China Equipment Management Association
- Zhongguancun Green Building Innovation Technology Alliance
- Water Purification Branch of China Membrane Industry Association
- Water Purification Branch of the National Health Industry Enterprise Management Association
- China Decoration Association

About the Organizer

Herui Expo

Herui Expo is a member of the Union of International Fairs (UFI). As an organizer with more than a decade of experience in planning and organizing professional brand exhibitions at home and abroad, Herui Expo always adheres to the spirit of craftsmanship, focusing on the B2B field, and is committed to creating an excellent international environmental trade platform.

Currently, Herui Expo participates in organizing more than 20 exhibitions and industry events annually, both domestically and internationally. Its core business scope includes exhibitions related to water purification, wastewater treatment, membrane, and water treatment, fluid machinery, energy-saving equipment, environmental monitoring, waste gas treatment, comprehensive environmental governance, indoor living environment, comfort systems, and low-carbon building decoration, as well as overseas cooperative exhibition projects and B2B e-commerce.

Informa Markets

Informa Markets creates platforms that drive trade, innovation, and growth for different industries and professional markets. Through hosting offline brand exhibitions, providing precise digital services, and offering practical data solutions, we offer opportunities for global customers and partners to engage, experience, and conduct business. Informa Markets' business covers numerous vertical professional markets worldwide, including pharmaceuticals, food, medical technology, and infrastructure. As a leading exhibition organizer, we energize various professional markets, provide extensive opportunities, and help these markets thrive around the clock.
